## **EXACTMD.COM CONTINUES RAPID GROWTH, WELCOMES VFORCE STAFFING SOLUTIONS TO CLIENTELE FAMILY**

*[ExactMD.com](http://ExactMD.com) provides intuitive, powerful healthcare talent acquisition tool for recruiting staffs and physicians*

**FRISCO, Texas** – [ExactMD.com](http://ExactMD.com), the recently launched online talent-acquisition and recruiting platform, today announced continued growth within the healthcare industry as the organization welcomes [VForce Staffing Solutions](#) to its growing clientele family.

The announcement comes amidst continual market expansion and development for ExactMD.com, which has seen thousands of individual physicians utilize its service resulting in more than 18,000 opportunity listings and more than 21,000 physician matches since launching in August 2015. VForce Staffing, with more than 25 years of experience in the recruiting industry, operates 14 locations with more than 400 employees and will utilize ExactMD.com for its ongoing staffing needs.

"We needed to connect with a professional site that is dedicated to the physiatrists, family doctors and hospitals our company targets," said Deborah Grimes, VForce Staffing Recruiting Specialist. "ExactMD.com is a lifesaver. The results have been an absolute success and generated exact matches for our hard-to-fill positions. Thanks to ExactMD.com, we are well on our way to becoming a formidable force in the healthcare staffing industry. I can hardly wait to see what's next."

Since launching last year, numerous clinics, groups, agencies and hospitals from across the U.S., including the [Sutter Gould Medical Foundation](#), [Arizona Pain Treatment Centers](#) and [Delta Companies](#), have signed up for ExactMD.com's robust matching system to fulfill their expanding recruiting needs. The innovative software-as-a-service (SaaS) platform is specifically built and tailored to provide accurate and exact opportunity matches to career-seeking physicians within a seamless user-friendly environment to fit their needs and lifestyle.

"The ExactMD.com family is thrilled about our rapid growth within the industry," said Steven Heath, founder and CEO of ExactMD.com. "Welcoming teams like VForce Staffing Solutions is evidence of the value ExactMD.com and its system provides both physicians and our recruiting partners. We look forward to working with VForce Staffing Solutions to provide the exact recruiting matches their team needs moving forward."

ExactMD.com is provided free of charge to all physicians while simultaneously setting the industry standard with its intuitive interface and powerful matching capabilities built for modern healthcare recruiting professionals. Through its industry-leading user dashboard, ExactMD.com brings recruiting staffs a powerful tool to easily identify matching candidates to fill open positions while organizing all matches into a single, intuitive interface.

Unlike traditional job-posting websites, the matching system powering ExactMD.com collects pertinent and detailed information for each individual physician through a seamless step-by-step process. Physicians are provided the capability to build multiple unique search profiles, which then are matched by ExactMD.com's proprietary algorithms to connect the candidate to open positions that meet their specific needs, qualifications and desired practice.

Functioning much like an online dating service, ExactMD.com automatically categorizes and organizes potential opportunities based on the strength of matches between the hiring authority and the physician's profiles and searches. Physicians may then express interest in openings or apply with a single click. Physicians also have the capability to save individual positions and take advantage of advanced search settings.

ExactMD.com was created and developed by Acculent, Inc. to better match physicians with their ideal opportunity while simultaneously providing a more efficient and effective process for hiring agencies to source interested, qualified and available talent. Through leveraging the non-linear, better results through better data, approach to healthcare staffing available at ExactMD.com, candidates and hiring professional can expect a better overall experience.

For more information regarding the job matching software and to view tutorial videos, read user testimonials or sign up for an account, visit [www.ExactMD.com](http://www.ExactMD.com).
